

CHICAGO, IL

CURRENT STATUS AS OF JUNE 11, 2021

The details for each phase are being informed by economic, health data and a combination of input from industry groups, health experts and the public. Specific health criteria for transition between the latter phases will be established and released based on new data and information to ensure the city remains strategic in their decisions.

Vaccine Rollout: All Chicagoans age 16 and older are eligible to receive the vaccine.

Vaccine Exemption: Fully vaccinated individuals do not have to count towards COVID-19 capacity limits across all industries.

AIRPORT OPERATIONS

Airport operations have been exempted from orders of essential infrastructure and business in earlier phases. O'Hare and Midway have remained open to accommodate essential travel and movement of goods during all phases. Airport concessions have also been exempted from the state's emergency order of closing bars/restaurants. Travelers and staff are required to wear a face mask at each airport.

DESTINATION DETAILS

Both the Governor of Illinois and the Mayor of Chicago stated that the entire state of Illinois, including Chicago, will enter Phase 5 on June 11th, a complete reopening. Chicago has eliminated the travel order requiring travelers returning to the city from states identified as hot spots must quarantine for 14 days. Beginning May 18, Illinois and the City of Chicago will no longer require masks for fully vaccinated people in most settings, including businesses. In alignment with federal and state guidelines, masks will still be required, regardless of vaccination status, in health care settings, schools, correctional/congregate settings, and on public transportation.
